## REHANA Rymanbee

### **coach**

REHANA stumbled into her future career quite by chance when she picked up a prospectus while dropping off her child at the crèche. She then underwent training and created Larbreveillant, a training and personal development centre. Rehana spreads an atmosphere of benevolence and calm around her at all times. Originally from Mauritius, she grew up in a multi-religious and multicultural environment. Her unusual life story has made her an exemplary coach.

For COACH2START, REHANA demonstrates that positive communication can help you to understand and be understood.
